

SOIL HEALTH PLANT

RGT MAIZE EXPERT

High productive break crop

RGT MAIZE EXPERT is specially formulated for use in maize rotations. In these intensive rotations it is important to work with cover crops as a break crop to rebuild the soil.

- Intensive root system in different horizons in soil
- N-capture along winter
- Late sowing possible till mid-October

Sowing Date :
August to Mid-october

Sowing Rate :
30-35 kg/ha
